

GRAPHIC ERA HILL UNIVERSITY, DEHRADUN

Profiling Sheet

Q.1: Write your career objective.

My career objective is to become a gr. cyber security
professional. I want to improve my technical skills as
well as my soft skills. I want to gain more practical knowledge
and my main goal is to be an independent person with stable life and to
make my parents proud.

Q.2: Why do you want to be an engineer? Elaborate reasons.

I wanted to be an engineer because technology fascinates me
how the whole network works behind the computer screen.
Also I like the idea of creating something new out of your
imagination which can contribute in society to make it a
better place.

Q.3: Write about projects or internship you have done/ are
doing along with the learning.

I have worked on fews projects which are Emergency
Blood donation location using data structure and
Mini- IDS (Intrusion Detection System) in Cyber Security
using Python.

Q.20: So finally, tell us something more about yourself or introduce yourself.

I am Rohit Kumar, I am currently pursuing Bachelor's of Technology in Computer Science and Engineering with specializing in Cyber Security. I am still learning and improving my skills day by day as I have improve my soft skills and technical skills from last few semesters. I may be slow in learning but I am sincere and dedicated. I believe in consistency and effort, I can grow into a better version of myself.

Q.17: Who is your role model? What qualities of that person you would like to see in your personality and why?

My role models are my parents. Their hard work, patience and sacrifice inspire me every day. I want to develop their qualities of responsibility, honesty & perseverance so that I can handle challenges in life with strength & maturity.

Q.18: Write a few lines about your friends. Do you think they help/ may help you in achieving your goals? If yes, how? If no, why do you accompany them?

My friends are supportive & understanding. They motivate me when I feel down and help me stay positive. I believe they help me achieving my goals by encouraging me to keep going.

Q.19: Write 3 leadership qualities. How many do you possess? Write an instance where you have applied those qualities.

Three leadership qualities are responsibility, patience & communication. I believe I possess two of two. I have applied these qualities during group tasks by completing my responsibilities sincerely & listening to others before making any decisions.

I don't like working with rude, arrogant and negative people who always try to put others down. If such a person became my senior in my dream job, I would still stay professional, focus on my work, learn what is required and not let them affect my growth.

Q.14: What do you expect from your first job? Prioritize and write in order.

A good learning environment
Supportive seniors & teammates
Opportunities to improve my skills
Job stability & security
Decent salary for self - Independence

Q.15: In the past year, what have you been dissatisfied about in your performance?

In past year, I have dissatisfied with my consistency & time management. I feel like I could have practiced more and utilized my time better. I struggle with self-doubt, which affected my confidence.

Q.16: Rate yourself out of 5 in verbal communication. What are you doing to improve your communication skills?

I would rate myself 3 in verbal communication. I sometimes hesitate while speaking. To improve, I am trying to speak more confidently, participate in discussions & express my thoughts clearly without fear of making mistakes.

Q.10: Give an example of an area, concept or thing that you are absolutely passionate about.

I am passionate about ~~how~~ learning cyber security and there tools how we prevent an attack to happen and also how logic works in problem solving

Q.11: Describe yourself as an individual in 5 lines.

I am Simple and Sincere person
I take time to learn but don't give up
I am emotionally sensitive but mentally strong
I believe in self-growth and improvement
I am trying to become better every day

Q.12: What kinds of people do you enjoy working with?

I enjoy working with supportive, understanding and respectful people. I like working in environment where learning & teamwork are valued more than competition.

Q.13: What kinds of people you don't want to work with?
What would you do if they became your senior in your dream job?

Q.7: Write about your weaknesses. What are you doing to overcome your weaknesses?

My weaknesses are overthinking, slow learning and self-doubt. Sometimes I compare myself with others and lose confidence. To overcome this, I am focusing on my own pace, setting small goals and reminding myself that progress is more important than speed.

Q.8: What is the most difficult moment that you have faced in your life so far? What qualities helped you to overcome the moment?

The most difficult moment in my life is feeling lost during my college journey and the fear of disappointing my parents. What helped me overcome this was patience, self-reflection and the decision to keep trying and instead of giving up.

Q.9: Apart from academics, what else are you interested in?

Make a separate list in terms of extracurricular activities, sports and any other interests.

Apart from academics, I like exploring aesthetic ideas and creativity. I enjoy caring for animals, especially cats. I am also interested in self-improvement and learning new things in my free time, like sketching, learning new recipes etc.

Q.4: What would you consider a significant achievement in your life and why?

One significant achievement in my life is continuing my engineering journey even when I felt confused and behind others. There are many moments of self-doubt, but I chose not to quit.

Q.5: Write about a failure of yours which you consider to share. What have you learned from it?

One failure I want to share is not taking my studies seriously in the beginning of college because of that my basics became weak and my confidence wavered. From this, I learned discipline and consistency matter more.

Q.6: What are your strengths? Write one or two instances where you have demonstrated your strengths.

My strengths are honesty, patience and determination. Even when I don't understand things quickly, I keep trying until I do. I show this strength while learning C programming and completing my project slowly but sincerely.
